

# CUSTOMIZED KNITWEAR

beanies | sweaters | scarves | headbands | neckwarmers | balaclavas | facemasks | gloves

# Big heart family business

Cheap clothes do not exist. Somewhere, someone has to pay for them.

We are a fair brand and support the international campaign Fashion Revolution. We believe the clothing industry, like its products, should not just be beautiful on the outside. It must be ethical, transparent and sustainable.

Our exclusive yarn supplier is Schoeller. Their yarns are certified to meet the independent ecological standard BLUESIGN®, which guarantees they are made with consideration for people's health and the environment.

# Apart from being original and of good quality, our products make you feel good.

OWNERS - Pertl's family

For the last 30 year the family business Kama has strived to produce Knit wear to the highest standard through innovation, design and continued development.

We use only the highest quality materials and processes to ensure we warm both your body and your soul. This we achieve with constant respect and attention to our staff, our customers and the environment. This is the way we believe in and it is our aim to continue with these principals in to the future.

Only with these principals Kama can ensure that our customers will continue to receive the highest quality products with outstanding aftersales services.

To ensure the highest possible standards we have complete ownership of the entire production process from design to final assembly in our own plant in Prague.

As an evidence that we listen to our customers' wishes we present you a new collection for the next season which is extended by products not only for winter. Thus you can enjoy KAMA products during the whole year.

Welcome to the world of KAMA.

## Established in 1989

The company was established in a living room. Today, we have our own factory and export to 30 countries across the globe.

## Locally made

Since the very beginning, we have always kept our production only in the Czech Republic, using the best quality materials.

## Thinking of others

We sponsor top athletes as well as young talents. We have been supporting volunteer and charitable organisations for a long time.
