A small family business with a big heart

Owners – Pertl's family

A small family business with a big heart

Since our inception in 1989, KAMA sweaters and hats have been proudly crafted exclusively in the Czech Republic.

We wholeheartedly support the **Fashion Revolution** campaign, advocating for ethically, transparently, and sustainably produced clothing.

„This is our enduring goal, a source of personal satisfaction, and unwavering motivation.“

Our wool yarns come exclusively from Austria's **Schoeller** GmbH & Co. KG, treated with chlorine-free **EXP** technology—an environmentally responsible process that adheres to stringent **bluesign®** standards, prioritizing human health and the environment.

For more than **three decades**, we've proudly partnered with W. L. GORE & Associates GmbH, offering the market exclusive knitted products featuring **GORE-TEX®** and **WINDSTOPPER®** by **GORE-TEX LABS** membranes.

**Family company
since 1989**

**Rodinná firma
založená 1989**

**Ethical, transparent
and sustainable business**

**Etické, transparentní
a udržitelné podnikání**

**Own factory
in the Czech Republic / EU**

**Vlastní výroba
v ČR / EU**

**Ecological certificates
of sustainability**

**Certifikáty ekologické
udržitelnosti**

Jsme malá rodinná firma s velkým srdcem

Svetry a čepice KAMA vyrábíme od založení firmy v roce 1989 pouze v České republice.

Stojíme za myšlenkou mezinárodní kampaně **Fashion Revolution** jejímž cílem je, aby oděvní průmysl neprodukoval jen oblečení krásné na pohled, ale také aby jej vyráběl eticky, transparentně a udržitelně.

„To je náš dlouhodobý cíl, přináší nám osobní satisfakci a stále nás motivuje jít dál.“

Používáme výhradně vlněné příze rakouského výrobce **Schoeller** GmbH & Co. KG s bezchlorovou úpravou EXP pro praní. **EXP** je první proces úpravy vlny na světě, který splňuje přísné standardy **bluesign®** s důrazem na ochranu lidského zdraví a životního prostředí.

Již **30 let** jsme licencovaným partnerem společnosti W. L. GORE & Associates GmbH a dodáváme na trh jedinečné pletené výrobky vybavené membránami **GORE-TEX®** a **WINDSTOPPER® BY GORE-TEX LABS**.

Andorra Olympic Team collection for Milano Cortina 2026

KAMA has dressed the Olympic team of the Principality of Andorra for the fifth time. As part of this long-term collaboration, a special collection of sweaters, hats, and gloves was created, designed both for the needs of the national team and for everyday wear.

KAMA obléká již na páté ZOH olympijský tým knížectví Andorra. V rámci této dlouhodobé spolupráce vznikla nová kolekce svetrů, čepic a rukavic, navržená pro potřeby oficiální prezentace výpravy i každodenní nošení.

Sustainable and Innovative Yarn

CHARACTERISTICS

SUSTAINNO

KAMA, as one of the first brands in the world, is introducing a new level of sustainable yarn – SUSTAINNO – thanks to its long-standing collaboration with Schoeller.

Sustainable and Innovative Yarn:

Sustainno is made from a combination of merino wool and a sustainable biophilic polyester fiber, creating a high-performance yarn.

Environmental Friendliness:

The yarn is recyclable and biodegradable, certified with the GRS (Global Recycled Standard) for recycled polyester (rPES).

Properties and Benefits:

It offers enhanced biodegradation in both aerobic and anaerobic conditions, as well as high resistance to abrasion and cracking.

Composition:

Composed of 65% fine merino wool and 35% recycled polyester.

It is wool from organic farms, extra fine merino class, with an eco-friendly EXP treatment for washing, and the yarn as a whole meets the strictest ecological standard.

KAMA vám jako jedna z prvních značek na světě díky dlouholeté spolupráci s firmou Schoeller přináší novou úroveň udržitelné příze - SUSTAINNO.

Udržitelná a inovativní příze:

Sustainno je vyrobena kombinací merino vlny a udržitelného biofilního polyesterového vlákna, které vytváří vysoce výkonnou přízi.

Šetrnost k životnímu prostředí:

Příze je recyklovatelná a biologicky odbouratelná, s certifikací GRS (Global Recycled Standard) pro recyklovaný polyester (rPES).

Vlastnosti a výhody:

Nabízí zlepšenou biodegradaci v aerobních i anaerobních podmínkách a vysokou odolnost proti oděru a praskání.

Složení:

Skládá se z 65 % jemné merino vlny a 35 % recyklovaného polyesteru.

Jedná se o vlnu z bio chovů, vlnu třídy merino extra fine, s ekologickou úpravou pro praní EXP a příze jako celek splňuje nejpřísnější ekologický standard.

SUSTAINNO

Yarn – Sustainno – 65% Merino Fine wool and 35% recycled polyester

Sustainable and Innovative Yarn: Sustainno is made from a combination of merino wool and a sustainable biophilic polyester fiber, creating a high-performance yarn. Environmental Friendliness: The yarn is recyclable and biodegradable, certified with the GRS (Global Recycled Standard) for recycled polyester (rPES). Properties and Benefits: It offers enhanced biodegradation in both aerobic and anaerobic conditions, as well as high resistance to abrasion and cracking. Composition: Composed of 65% fine merino wool and 35% recycled polyester.

schoeller
the spinning group

Yarn – 100% Merino wool

Complex, natural, functional fiber is naturally super fine and non itchy, antibacterial and odor-resistant, ideally regulates temperature, warm even when wet, antiallergic and UV-resistant. Processed without chlorine using the EXP4.0 technology for easy washing in the washing machine. Bluesign®APPROVED – Certificate of highest environmental friendliness and safety.

Yarn – 50/50 Merino wool/acrylic

The combination of fine Merino wool and premium Acrylic fibers excels in softness, non itchy, antipilling and is naturally antibacterial and odorless. Bluesign® APPROVED – Certificate of highest environmental friendliness and safety.

Yarn – 45/55 Merino wool/acrylic

The combination of fine Merino wool and premium bulky Acrylic excels with fineness, breathability and extra warmth. Bluesign® APPROVED – Certificate of highest environmental friendliness and safety.

Příze – Sustainno – 65 % Merino Fine vlny a 35 % recyklovaného polyesteru

KAMA vám jako jedna z prvních značek na světě díky dlouholeté spolupráci s firmou Schoeller přináší novou úroveň udržitelné příze – SUSTAINNO. Udržitelná a inovativní příze: Sustainno je vyrobena kombinací merino vlny a udržitelného biofilního polyesterového vlákna, které vytváří vysoce výkonnou přízi. Šetrnost k životnímu prostředí: Příze je recyklovatelná a biologicky odbouratelná, s certifikací GRS (Global Recycled Standard) pro recyklovaný polyester (rPES). Vlastnosti a výhody: Nabízí zlepšenou biodegradaci v aerobních i anaerobních podmínkách a vysokou odolnost proti oděru a praskání.

Příze – 100% Merino vlna

Komplexní, přírodní, funkční vlákno je přirozeně jemné a neškrábe, je antibakteriální a odolává zápachu, ideálně reguluje teplotu, hřeje i když je mokré, je anti alergenní a odolné vůči UV záření. Zpracováno bez použití chlóru technologií EXP4.0 pro snadné praní v pračce. Bluesign® APPROVED – certifikát nejvyšší ekologické šetrnosti a bezpečnosti.

Příze – 50/50 Merino vlna/akryl

Kombinace vláken jemné Merino vlny a prémiového akrylu vyniká jemností, neškrábe, nežmolkovatí a je přirozeně antibakteriální a bez zápachu. Zpracováno bez použití chlóru. Bluesign® APPROVED – certifikát nejvyšší ekologické šetrnosti a bezpečnosti.

Příze – 45/55 Merino vlna/akryl

Kombinace jemné Merino vlny a objemovaného akrylu vyniká jemností, nadýchaností a hřejivostí. Bluesign® APPROVED – certifikát nejvyšší ekologické šetrnosti a bezpečnosti.

Polycolon®
for active wear

Polycolon®

Polycolon® is a hydrophobic fiber which does not absorb moisture and wicks it away from skin. It has excellent thermal properties and resist dirt. It is suitable for active athletes, but also, thanks to non-irritation and comfort, for everyday use.

Polycolon®

Polycolon® je hydrofobní vlákno, které neabsorbuje vlhkost a odvádí ji od pokožky. Má velmi dobré tepelné vlastnosti a odpuzuje nečistoty. Je vhodný pro aktivní sportovce, ale díky neдрáždivosti i pro běžné nošení.

WINDSTOPPER® BY GORE-TEX LABS

The totally windproof, yet extremely breathable membrane. This combination of protection and breathability reduce the wind's chilling effect while reducing the risk of hypothermia or overheating when you are active.

WINDSTOPPER® BY GORE-TEX LABS

Kompletně větruodolná, přesto však extrémně prodyšná membrána. Tato kombinace ochrany a prodyšnosti minimalizuje chladič účinek větru a snižuje tak riziko podchlazení a zároveň i přehřátí, když jste aktivní

GORE-TEX®

GORE-TEX® products are durably waterproof and windproof combined with optimized breathability.

GORE-TEX®

Produkty GORE-TEX® jsou trvale nepromokavé, větruodolné a optimálně prodyšné.

Fleece – Recycled Bottles (PONTETORTO)

Plastic bottles info high quality fleece “Our vision is a world where used plastic bottles are seen not only as waste but as a valuable resource to be used repeatedly.”

Fleece – Recycled Bottles (PONTETORTO)

Z plastových lahví kvalitní fleece. Naše vize je svět, kde použité plastové láhve nebudou jen obtížným odpadem, ale materiálem, který lze použít opakovaně.

Fleece – Tecnostretch® (PONTETORTO)

TECNOSTRETCH® is a soft and very light elastic material suitable for active sport. The fiber bonding forms a durable outer side, while the internal polyester side has excellent thermal insulation properties and excellent sweat absorption capability.

Fleece – Tecnostretch® (PONTETORTO)

Jemný elastický materiál vhodný pro aktivní sport. Vnější strana je mechanicky odolná, vnitřní díky počesanému vlasu příjemná s ideálními termoizolačními vlastnostmi.

Fleece – Tecnopile® (PONTETORTO)

Highest quality fleece made from selected polyester fibers with properties of antipilling, high thermal insulation, optimal breathability, elasticity and lightness, non-irritation and super softness and easy care.

Fleece – Tecnopile® (PONTETORTO)

Fleece nejvyšší kvality vyroben z vybraných polyesterových vláken, která zaručují odolnost proti žmolkování, vysokou termoizolaci, optimální prodyšnost, elasticitu, lehkost, neдрáždivost, super jemnost na dotek a jednoduchou údržbu.

Tecnowool® (PONTETORTO)

Tecnowool combines the best features of the natural Merino wool material with functional properties of synthetic materials. Thanks to this combination of materials, it ideally wicks the moisture away from the skin, is very durable, abrasion resistant, ideally breathable and naturally UV-resistant.

Tecnowool® (PONTETORTO)

Tecnowool® kombinuje ty nejlepší vlastnosti výjimečného přírodního materiálu Merino vlny s funkčními vlastnostmi syntetických materiálů. Díky této kombinaci materiálů dochází k ideálnímu odvodu vlhkosti od pokožky a postupnému odpařování. Materiál je mechanicky velice odolný, ideálně prodyšný a přirozeně odolný proti UV záření.

Thermolite®

Thermolite® belongs to the category of insulating and moisture wicking materials. Through aerated hollow fibers it provides one of the highest levels of thermal insulation. Due to its fiber profile, it efficiently and quickly transports sweat from the skin that is otherwise most involved in cooling the body.

Thermolite®

Thermolite® je izolační, transportní materiál. Jeho výjimečnost spočívá v tom, že dutá vlákna poskytují jednu z nejvyšších úrovní tepelné izolace. Díky profilu vláken transportuje efektivně a rychle pot od pokožky, který se jinak nejvíce podílí na ochlazení těla.

CARE
OŠETŘOVÁNÍ

CARING FOR MERINO WOOL PRODUCTS: BASIC RULES

The product can be machine washed. Use only the wool cycle, as it is more gentle (applying appropriate temperature and lower-speed spin).

The product can be hand-washed in water below 30 °C, followed by gentle wringing and flat drying, best on a towel. When rinsing, lower water temperature gradually to prevent shrinking or other deformation.

Use **gentle detergents** for wool.

Don't dry the product on a heater. If a heater's temperature exceeds 30 °C (which is very common), the water contained in the knit also exceeds 30 °C and the product shrinks, like it does when washed improperly. **Do not use a softener!**

WARNING! MACHINE WASHING IN WATER **ABOVE 30 °C** AND LONG SPIN CYCLES DEGRADE THE PRODUCT. THE KNIT TURNS INTO FELT AND SHRINKS. CLAIMING WARRANTY FOR PRODUCTS DEGRADED THIS WAY IS NOT POSSIBLE.

ZÁKLADNÍ PRAVIDLA PRO OŠETŘENÍ VÝROBKŮ Z MERINO VLN

Výrobek je možné prát v pračce. Použijte výhradně program na vlnu, který respektuje šetrnější praní (přiměřenou teplotu a snížený počet otáček při odstředování).

Výrobek je možné prát v ruce ve vlažné lázni do 30 °C. Poté jemně vyždímat a sušit ve vodorovné poloze, nejlépe na ručníku. Při máchání postupně snižujte teplotu lázně, aby nedošlo k vysrážení nebo deformaci.

Používejte **jemné prací prostředky** určené na vlnu, jak pro praní v ruce, tak i v pračce.

Nesušte výrobek na topném tělese. Pokud topení přesáhne teplotu 30 °C, (a to je zcela běžné) voda obsažená v úpletu se zahřeje také nad 30 °C a výrobek se srazí stejným způsobem jako při nevhodném praní – **nepoužívejte aviváž!**

POZOR! PRÁNÍ V TEPLĚJŠÍ VODĚ (**VÍC NEŽ 30 °C**) A DLOUHÉ MLETÍ V PRAČCE VÝROBEK ZNEHODNOTÍ, ÚPLET ZPLSTNATÍ A SRAZÍ SE. TAKTO ZNEHODNOCENÝ VÝROBEK NELZE REKLAMOVAT.

Partner of Jizerská 50 – Worldlopett X-Country Ski Marathon **Jizerská 50**

Official merch for Jizerská 50 - 2026

Andorra Olympic Team collection for Milano Cortina 2026

Established in 1989

The company was established in a living room. Today, we have our own factory and export to countries across the globe.

Založeno 1989

Firma vznikla jako malá domácí výroba. Dnes má KAMA vlastní výrobní objekt a kromě prodeje v ČR exportuje do 23 států světa.

Locally made

Since the very beginning, we have always kept our production only in the Czech Republic, using the best quality materials.

Vyrábíme v Česku

Po celou dobu existence vyrábíme výhradně v České republice. Zpracováváme jen nejkvalitnější certifikované materiály.

Thinking of others

We sponsor top athletes as well as young talents. We have been supporting volunteer and charitable organisations for a long time.

Myslíme na ostatní

Sponzorujeme vrcholové sportovce i mladé talenty. Dlouhodobě spolupracujeme s dobročinnými a charitativními organizacemi.

History

1989

The KAMA name originated as the abbreviation of KATEŘINA and MAHULENA, the two founders.

KAMA vznikla jako malá domácí výroba.

1990

Singer Karel Černocho designing our first logo.

2020

KAMA is getting bigger. Reconstruction of the KAMA production facility. Addition of the second floor, purchase of new machines, modernization of the company.

Zrekonstruovali a zmodernizovali jsme původní výrobní objekt v Praze 6.

Become part of our story

We have been making knitwear for various organisations: advertising agencies; sports associations and clubs; hockey, football and ski teams; hotels, schools and fan clubs.

We will make the product according to your preferred colours and patterns. The product can bear your logo in the form of embroidery or an appliqué. Alternatively, you can design your own jacquard pattern.

Staňte se součástí našeho příběhu

Vyrábíme pro celou řadu malých i velkých firem, reklamních agentur, sportovních svazů, hokejových či fotbalových klubů, lyžařských týmů, hotelů, škol i fanklubů.

Výrobek barevně a vzorově přizpůsobíme vašim představám. Čepice a svetry opatříme výšivkou s vaším logem. Vámi navrženou grafiku převedeme do pleteného vzoru.
